Hi Richard – the two new records, SDMS #1622637 & 1622638, have now been uploaded to SEMS. An updated index of the AR is attached, showing the page counts. I have submitted the CD request to Steve and will let you know when the CDs are ready.

Best wishes,

Marcus

**Subject:** Two replacement documents for Gold King Mine Release site initial AR

All – Attached are two documents that have some minor redactions. These replace documents 1622633 and 1622636 in this initial AR. So I will bring you a coding sheet for these two documents that are being replaced so they can stay in the site file as restricted. These replacement documents are fully releasable.

So please remove documents 1622633 and 1622636 from the Gold King Mine Release site initial AR and add the two attached documents to the Initial AR.

Once imaged, I need 5 CDs with the AR.

Thanks
